Frenectomy Provider List

Bloom-approved release providers for tongue-tie and lip-tie care

These are the providers Bloom Therapy Group trusts for tongue-tie and lip-tie releases. Choose the one that fits your family's location, schedule, and insurance. Your Bloom therapist is happy to help you decide.

How it works

1. **Evaluation.** Your Bloom therapist identifies which sites (tongue, lips, or cheeks) are recommended for release.
2. **We send your records.** With your permission, we send your evaluation and release form to your chosen provider.
3. **Schedule.** Contact the provider's office. For some providers, a Bloom therapist joins you.
4. **Heal with support.** Therapy visits at 1, 2, and 3 weeks after the release, continuing for 6 weeks.

GREATER NEW ORLEANS

Dr. Kristoffer Norbo, DDS, MSD NOLA Pediatric Dentistry	
Specialty	Board-certified pediatric dentist
Address	7030 Canal Blvd, Suite 120, New Orleans, LA 70124
Phone	(504) 420-6652
Website	nolapediatricdentistry.com
Procedure	Laser release that takes just a few minutes for babies, with little to no bleeding. Dr. Norbo works with speech-language pathologists and lactation consultants before and after.
Ages	Infants through adults. Babies under 12 months are treated in the office and can breast or bottle feed right after the procedure. Optional IV sedation for children 12 months and older, on scheduled sedation days about once a month.
IV sedation	Provided by pediatric anesthesiologist Dr. John Sisney
Bloom at procedure	Yes. A Bloom therapist joins your family for the procedure.

Dr. Alexis Russell, DDS ("Dr. Lex") Tulane Family Dentistry	
Address	1600 St. Charles Ave, Suite 201, New Orleans, LA 70130
Phone	(504) 226-5740
Website	tfdnola.com
IV sedation	Available, provided by pediatric anesthesiologist Dr. John Sisney
Bloom at procedure	Yes. A Bloom therapist joins your family for the procedure.

Dr. Susan Fallahi, DDS Uptown Pediatric Dentistry	
Address	3715 Prytania St, Suite 380, New Orleans, LA 70115
Phone	(504) 896-7435
Website	uptownpediatricdentistry.com
Procedure	Board-certified pediatric dentist. Releases are done without a laser, using numbing cream for comfort.
Ages	Infants through teens. In-office sedation available. Babies can breast or bottle feed right after the procedure.

Dr. Lacey Andreotta, DDS, IBCLC Southern Dental Care	
Address	7301 Westbank Expy, Marrero, LA 70072
Phone	(504) 347-1014
Website	southerndentaldds.com
Procedure	LightScalpel CO2 laser. The release itself takes 30 to 45 seconds. Dr. Lacey is also an International Board Certified Lactation Consultant.
Ages	Infants through adults. Sedation options available. Babies can breast or bottle feed right after the procedure.

Dr. Sarah Haydel, DDS Lakefront Dental Care	
Approach	A general dentist who partners with your therapist before, during, and after the release. Surgery is scheduled only after therapist clearance.
Laser	Fotona LightWalker, with gentle light therapy afterward to support healing.
Address	7037 Canal Blvd, Suite 210, New Orleans, LA 70124
Phone	(504) 282-5557
Ages	Infants through adults. Babies can breast or bottle feed right after the procedure.
Bloom at procedure	Yes. A Bloom therapist joins your family for the procedure.

Dr. Tiffany G. Barrett, DDS Children's Hospital Dental Clinic	
Address	200 Henry Clay Ave, New Orleans, LA 70118
Phone	(504) 896-3901
Email	ch-dentalclinic@lcmchealth.org
Specialty	Pediatric dentist at Manning Family Children's. Accepts insurance.
Ages	Infants through teens.
Bloom at procedure	No. Your Bloom therapist supports you before and after the procedure.

NORTHSHORE

Dr. Brooke Vinturella, DDS Todd S. Brasuell Pediatric Dentistry	
Address	437 LA-21, Madisonville, LA 70447
Phone	(985) 892-5942
Website	toddbrasuelldds.com
Procedure	CO2 laser. Babies receive numbing jelly. Older children may receive numbing medicine and laughing gas, with IV sedation and general anesthesia available when appropriate. Works alongside lactation consultants, speech and myofunctional therapists.
Ages	Infants and children. Babies can breast or bottle feed right after the procedure.
Bloom at procedure	Yes. A Bloom therapist joins your family for the procedure.

Dr. Tyler Mesa, DDS Live Oak Pediatric Dentistry	
Address	2800 Gause Blvd E, Suite D, Slidell, LA 70461
Phone	(985) 259-6737
Email	hello@liveoakpd.com
Website	liveoakpd.com
Ages	Infants through 18 years. Babies under 12 months are treated in the office and can breast or bottle feed right after the procedure.
Sedation	Optional IV sedation provided by pediatric anesthesiologist Dr. John Sisney. Laughing gas and oral sedation also offered.
Bloom at procedure	No. Your Bloom therapist supports you before and after the procedure.

BATON ROUGE

Address	4607 Sherwood Common Blvd, Building 1, Baton Rouge, LA 70816
Phone	(225) 924-6622. Ask for Adrienne, the frenectomy coordinator.
Website	aipdbr.com
Procedure	LightScalpel CO2 laser. Babies under 12 months are gently swaddled and treated with numbing gel, without sedation. Toddlers through teens may be offered conscious sedation or general anesthesia.
Ages	Infants through 18 years. Babies can breast or bottle feed right after the procedure.
Bloom at procedure	No. Your Bloom therapist supports you before and after the procedure.

Good to know

- This list reflects providers Bloom collaborates with regularly and is not a complete list. Please check with the office about insurance, fees, and consultations before scheduling.
- Therapy after a release matters as much as the release itself.
